**Advisory Action
Before the Filing of an Appeal Brief**

Application No.

10/519,841

Applicant(s)

DIETSCHKE ET AL.

Examiner

Kevin R. Krueer

Art Unit

1794

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 18 October 2007 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☐ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☒ The period for reply expires 4 months from the mailing date of the final rejection.
b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. ☒ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
(a) ☒ They raise new issues that would require further consideration and/or search (see NOTE below);
(b) ☐ They raise the issue of new matter (see NOTE below);
(c) ☒ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. ☐ Applicant's reply has overcome the following rejection(s): _____.
6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. ☒ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
The status of the claim(s) is (or will be) as follows:
Claim(s) allowed: none.
Claim(s) objected to: none.
Claim(s) rejected: 1-9 and 16-24.
Claim(s) withdrawn from consideration: 25.

AFFIDAVIT OR OTHER EVIDENCE

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

11. ☐ The request for reconsideration has been considered but does NOT place the application in condition for allowance because: _____.
12. ☐ Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No(s). _____.
13. ☐ Other: _____.

Advisory Action

Applicant's arguments filed October 18, 2007 have been fully considered but are not persuasive. Applicant's proposed amendment will not be entered because they raise new issues that would require further search and consideration. Specifically, the claim would limit the claimed radiation curable coating system to "clear" coats. Said limitation has not previously been considered. Furthermore, the amendment has not been entered because it is not deemed to place the application in better form for appeal by materially reducing and or simplifying the issues on appeal. The amendment does not reduce the issues on appeal.

Applicant argues the cited art is in diverse fields of technology, none of which are in the field of the present application: clear top coating systems. Applicant further argues the prior art provides the skilled artisan with absolutely no motivation to direct their efforts to the specific objective of the present topcoating system which is placed in contact with the elastic intercoat material for application to a substrate surface. Said argument is noted but is not persuasive because the claims are not limited to clear top coating systems.

Applicant argues any attempt to combine the references is severely strained because the fields of injection molding and the hologram of Otaki are in no way connected. The examiner respectfully disagrees and maintains the skilled artisan would have been motivated for reasons of record. Specifically, it would have been obvious to apply the hologram of Otaki to the molding of Mack to authenticate said substrate. The

Art Unit: 1794

examiner notes that the differences noted by applicant are not commensurate in scope with the claims and, therefore, fail to distinguish from the applied art.

With respect to Onozawa, applicant argues the windowpane taught therein is not attached to another layer but fails to explain how the examiner erred in the analysis of the reference. Therefore, the rejection is maintained based upon the reasoning of record. With respect to Matsuoka, the examiner notes the reference was never relied upon to teach the claimed top-coating/elastic intercoat combination. Rather, Onozawa was relied upon for said teaching. Furthermore, Korpman and Downey were never relied upon to modify Matsuoka. Rather, said references were relied upon to modify the adhesive layer taught in Onozawa. Applicant's argument that "the adhesives of Downey or Korpman exhibit a Tg which is significantly different from the Tg's of the adhesives of Downey and Korpman" is not fully understood. Thus, the examiner is unable to fully respond to applicant's arguments.

With regards to Bergh in view of VanHavenbergh, Applicant argues Bergh does not teach the claimed multi-coat system in that the reference material is opaque whereas the claimed topcoat layers are clear. Said argument is not persuasive because it is contingent upon the entry of the non-entered amendment.

For the reasons noted above, the rejections are maintained.

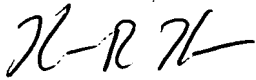

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin R. Kruer whose telephone number is 571-272-1510. The examiner can normally be reached on Monday-Friday.

Art Unit: 1794

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on 571-272-3816. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
